Veeam Cloud Connect
Managed by Deft

Avoid the risk of catastrophic data loss in case of a site disaster through hosted backup repositories with Veeam Cloud Connect. It’s the easy, efficient way to get backups offsite to Deft.

Each Deft Veeam Cloud Connect Service is built and managed via our proven processes, delivering tangible value:

**Instant Support**
Talk, email, video or Slack with a person, not a phone tree.

**The Best Targets**
High-availability, high-performance, production-quality targets with premium connectivity to meet your SLAs.

**Easy Integration**
Each application is unique so you can set RPOs per app.

**100% Uptime SLAs**
100% network availability SLA and 15 minute support response times from our Service Desk.

**How It Works**

**RTO and RPO Requirements**
Recovery time objectives (RTOs) and recovery point objectives (RPOs) vary significantly from service to service. Your requirements may be as simple as pointing to a high-performance, high-availability target for an existing Veeam deployment, or as complex as multi-site backups with reserved compute instances to spin up if needed.

**About Deft**
Deft offers managed cloud services, cloud consulting, cloud-native software development, business continuity solutions and managed data center services. We work with companies, large and small, that see IT as their critical success factor. We are a SOC 2 audited company, PCI-DSS compliant and a proud, 8-time Inc. 5000 Honoree.

At the end of the day, choosing Deft for a Veeam Cloud Connect target means that you can focus on your business and leave the rest to us. We’ll be here for you every step of the way.
What To Expect

**Step 1**

Request an estimate. We’ll send you a quote with a service agreement for you to sign.

**Step 2**

Configure Veeam Availability Suite.

**Step 3**

Back up your data.

**Step 4**

Data can be restored, in whole or in part, as needed.

All data and VMs are stored on ServerCentral’s high-availability, high-performance target.

You can count on our recovery experts 24/7/365 for immediate help.

**Pricing**

Pricing starts at $75/TB/mo. Complete this [form](#) or email sales@servercentral.com to get started.
