

Azure Services

Our Azure-certified experts can monitor your cloud, respond to alerts, or manage and optimize the whole shebang for you.

Azure Aware

Gain visibility into the performance, availability, and health of your Azure environment for free. Escalate to Deft's team of Azure-certified experts as needed.

Azure Aware is a free audit-logging, monitoring, and alerting service. Alerts go directly to your team for troubleshooting, with the option to escalate to Deft Support. On-demand support can be purchased hourly or in blocks:

- One-off support requests with no commit: \$350/hr
- 5-10 hours/month: \$300/hr (save \$50/hour)
- 10+ hours/month: \$250/hr (save \$100/hour)

Optimization recommendations are included for free.

Azure Optimize

Let Deft keep your Azure environment healthy. We'll proactively implement routine optimizations that improve your cost savings, performance, and security. And all monitoring alerts will be resolved on your behalf.

Azure Optimize is a completely managed Azure service. Deft's team of Azure-certified engineers handle everything from patching and backups to recoveries and encryption.

Pricing depends on our assessment of your Azure environment and starts at \$1500/month.

Azure Aware vs. Azure Optimize		
Services	Azure Aware	Azure Optimize
Monitoring	✓	✓
Alert response	✗	✓
Audit Logging	✓	✓
On-demand support	Available as an upgrade	✓
Proactive Maintenance	✗	✓
Backups	✗	✓
Cost optimization	✗	✓
Performance optimization	✗	✓
